The body of Stiney Schliński, a miner, was found on the trolley line between Walston and Punsutawney Saturday night. The supposition is that Schliński was murdered and the dead body placed on trolley track to cover up the crime. The case is being investigated.

Ninian Cooper, of this place, who is in his eightieth year, attended civil court in Brookville this week as a witness in a land dispute. The facts in the case occurred over sixty year ago. Mr. Cooper says this is the first time in his life that he was ever subpoenaed as a witness in court.

Rev. C. H. Fitzwilliam, of Punsutawney, who assisted Dr. Meek two weeks in the evangelistic meetings being held in the Reynoldsville Baptist church, was to have preached here Monday evening, but one of his daughters took seriously ill Sunday evening and he was unable to come to this place.

A foreigner who was sleeping beside the Jefferson Traction Co. line near Soldier Sunday evening was rudely awakened by a trolley car hitting him. Fortunately the man was not close enough to the rail to get a death blow, however, he got an ugly gash cut in his head. When Dr. gets his large sloping lawn carpeted with green grass and other exterior work completed his home will be a model of beauty, and certainly a credit to our town. Reynoldsville 29, Punsuxy 4. Proof sufficient of the growing popularity of basket ball in Reynoldsville was furnished Friday evening at the game between the Enterprise Athletics and Punsutawney. About all the available space for spectators was taken up and interest ran high. The boys from Punsuxy put up a fast, clean game but our own team had them beaten from the start. The first half ended with the score 15 to 4 in Reynoldsville's favor and in the second half Punsutawney could do nothing at all with the ball while our own team increased their lead by fourteen. Final score 29-4. There were a number of "rosters" present from Punsutawney and both teams were heartily cheered for good work. Before the regular game the Keystone band gave a concert and two teams of small boys played a game, which if not quite as scientific, furnished as much amusement as the main contest. It was announced that Weedville would play in Reynoldsville February 2. Beechwoods and Reynoldsville will play Saturday evening, January 27th.

AMERICAN PRODUCTION CO.

Bonded for \$30,000—Name of Plant Changed. Last October C. F. Dickinson, J. S. Beckwith and O. L. Schlumpf, of Pittsburgh, bought the controlling interest in the American Production Company plant at Reynoldsville. The Production Company was not in a very good financial condition and to place it on a solid footing and to give the Pittsburgh parties, who are practical men, a fair chance to make the plant a success, the stockholders voted Monday to bond the plant for \$30,000 and to change the name of it from American Production Co. to Pittsburgh Industrial Iron Works.

The new company will manufacture and deal in engines, boilers and general contractors' and rolling mill machinery, in addition to a machine and general foundry trade, including brass foundry work. The prospects are bright for this plant to become a successful and paying industry. The company is now crowded with orders.

As Good as Howe. All who enjoy bright clean comedy will be delighted to learn that The Herald Square Moving Pictures with a program brimming with the latest sparkling gems, will be seen here. One beauty of a moving picture entertainment, and greatly in its favor is the fact that "nerves" are never tried by rasping voices, badly placed modulations, wrong inflections, mispronunciations and a thousand and one mannerisms that often mar an otherwise meritorious play, especially when a conceited novice gets into the lime-light. That's one great reason why The Herald Square Moving Pictures have become so popular. Be sure to secure a good seat so you may spend a really enjoyable evening when these pictures are here.—Reynolds opera house Monday, January 29. Seats on sale at the Stoike drug store.

Frank's Tavern Annex. The brick annex for Frank's Tavern is about completed and it is a very convenient and nicely furnished annex. There are seventeen bed rooms in it, two of them are double rooms. The rooms are all heated with steam and will soon be lighted by electricity. There are two bath rooms in the annex. An electric dynamo with 150 light generator is being installed in the basement of the annex. A gas engine will run the dynamo. This dynamo will furnish lights for the tavern and annex both. A large bakery and steam laundry are being fitted up in the basement. The present dining room in tavern is too small to accommodate the large number of people who patronize the tavern and Mr. McConnell has decided to convert the pool room back of the office into a dining room. When ready for use it will be a fine dining room.

National Window Glass Co. At a meeting of independent glass manufacturers held in Pittsburgh last week an organization was formed to be known as the National Window Glass Company. It is capitalized at \$1,000,000. Membership consists of independent glass manufacturers. Temporary officers were elected and all the preliminaries completed for the organization, but its permanency depends entirely on obtaining the signatures of the representatives of 1,800 pots. If they fail in securing that number of pots then the organization has to be abandoned. Only representatives of 1,300 pots up until Monday had met the requirements for membership in the National Window Glass Co. If the 1,800 pots are secured and the organization stands, it means an increase of from 10 to 15 per cent in the price of glass within two or three weeks and continued employment for the glass workers at present prices, but if the organization has to be abandoned a reduction in wages or no work will likely be the result.
